Peter, I intended to cc you the original. I pulled the trigger too quickly.

Subject: Additions to the different matrices

Peter picked up a few more "edits to existing comments", or "additional comments" from some of the letters he reviewed. For your particular category (ies) for which you have the lead, please take a look at the attached matrix, determine which ones apply to your category (ies) and add them to your matrix as appropriate. Give me a call if you have any questions.
